

## Equine Ambulatory Assistant

**Terrific career opportunity with a dynamic, winning team**

Ballinger Equine is a modern, dynamic and friendly ambulatory practice, with a reputation for clinical excellence and compassionate, client focussed care. We seek a new or recently qualified equine clinician looking to develop their career in a well-equipped and supportive environment.

The practice caseload is busy and varied ranging from elite competition horses and racehorses to leisure and pleasure horses and ponies.

Confident with clients and their horses, you'll thrive on using your initiative; an enthusiastic team-player, you'll enjoy working with your veterinary and administrative colleagues.

With excellent written and verbal communication skills, and a keen interest in pursuing your CPD, you'll bring energy, compassion and commitment to one of the region's busiest and best ambulatory equine practices.

We believe in a healthy work-life balance and our clinicians enjoy a 4-day working week (on full salary) and the on-call 1:4 rota. Support from the practice administration team is excellent.

A clean, current UK driving licence is required and remuneration is competitive, based upon experience and qualifications. Our beautifully located practice office has excellent facilities and central London is just a short distance away.

Applicants are encouraged to telephone Dr Susanna Ballinger MRCVS on 07539 598007 to discuss this exciting career opportunity.

**Applications to be emailed to Andrew Hillier at
