

# BALLINGER EQUINE

## Ambulatory Veterinary Assistant

### Great opportunity for enthusiastic, motivated veterinarian

Continued expansion of our progressive, dynamic ambulatory practice means we are recruiting an additional veterinary surgeon. With a reputation for clinical excellence and client-focused care, we offer a supportive working environment for a motivated equine veterinarian looking to develop their career in a friendly, well-equipped practice.

Ballinger Equine is a leading home-counties, first-opinion equine ambulatory practice with a busy and varied caseload ranging from top competition horses to leisure and pleasure horses and ponies. We are seeking an equine ambulatory assistant to work from our modern Hertfordshire HQ. Full case investigation and follow-up is actively encouraged and supported.

Confident handling horses and liaising with clients, you'll thrive on using your initiative whilst benefiting from the support and guidance from our veterinary director, an RCVS Advanced Practitioner. As a team player, you'll enjoy working with your veterinary and administrative colleagues, and be willing and able to participate in the practice on-call and out-of-hours rota.

With good written and verbal communication skills, and a keen interest in pursuing your own CPD, you will bring energy, enthusiasm, compassion and commitment to one of the region's busiest and best equine ambulatory practices.

A clean, current UK driving licence is required for this role. Remuneration is competitive. Our smart practice office has excellent facilities with central London just a quick and easy drive, or short rail journey, away.

Prospective applicants are encouraged to call Dr Susanna Ballinger MRCVS in confidence on 07539 598007 to discuss the role.

All applications should consist of:

- Detailed CV.
- Three professional referees (who will only be approached with your permission).
- Application letter outlining why you want to work with us and the added value you would bring to Ballinger Equine.

All applications to be emailed to [a.hillier@ballingerequine.com](mailto:a.hillier@ballingerequine.com)
